

325 readme

Christopher Velazquez
12/7/18
CS 325 Fall 2018

325design.sql : creates Tables

325population.sql : populates the Tables

325queries.sql: A few queries to prove that everything works

325report1-results.sql : A view of the data

325report2-results.sql : A sum of some data

325report3-results.sql: A view of the data

325show-contents.sql : shows all the data of the tables.

In order to get this to run, run 325design, then 325populate, and then any of these files should be able to be run in order to prove that all the data is there.
